

Nasher Sculpture Center Drawings Forum

[Join Today](#)

Announced in March 2022, the Nasher Sculpture Center Drawings Forum is a new acquisitions group dedicated to the growth of the museum's holdings of drawings by sculptors. The Drawings Forum is the Nasher's first formal acquisition group and is one of the few—if not only—museum acquisition groups with a specific focus of drawings by sculptors.

Guided by Nasher curators, Drawings Forum members will collaborate with artists, scholars, and experts in the field to bring new drawings into the Nasher collection, enriching the representation of this foundational aspect of the sculptural process. The Drawings Forum will expand programmatic possibilities and bring new dynamism to the museum's offerings.

Members

The Drawings Forum is comprised of a distinguished circle of collectors and patrons who will make a significant financial contribution to the Nasher's acquisition efforts. Invited members include both new and experienced collectors with different levels of experience with the acquisition process. All members feel passionately about expanding the Nasher's collection and are dedicated to creating an intimate, active circle.

Events

Each year, Drawings Forum members will participate in several invitation-only, behind-the-scenes events ranging from artist studio visits and private collection viewings to regional and national travel opportunities. Each year will culminate in a group dinner, deliberation, and vote for an acquisition or acquisitions to be added to the museum's collection.
